

Flagstaff Commonwealth Primary Care ACO

Flagstaff Commonwealth Accountable Care Organization (ACO) is a partnership of independent physicians in Flagstaff utilizing locally owned and operated Primary Care Providers and Specialists, working together to improve the health of people in Northern Arizona. **Our goals are enhancing communication between**

all medical providers and clinics, streamlining processes, providing quality cost-effective care, and improving health outcomes.

We understand you have a choice when deciding where you receive medical care. That is why we have created the largest network of local primary care providers, working together to benefit our patients through seamless coordination of care. Commonwealth is a federally approved ACO participating in the Medicare Shared Savings Program.

Go to
MyHealthcareTeam.net
and take that first step to select a
Commonwealth Primary Care Provider.
